CY24 Command Safety Program Goals

MCLB Albany

GOAL: Increase Medical Surveillance Compliance (90% or Greater)

Background: Occupational Medical Surveillance is the systematic process of monitoring the health of Marines and Civilian Marines exposed to specific hazardous substances or conditions in the workplace. Examples of such hazards include asbestos, noise, lead, ionizing radiation, hearing, etc. Medical surveillance compliance for MCLB Albany Marines is currently 74% and 88% for Civilian Marines for assigned stressors. This means over 26% of Marines and approximately 12% of Civilian Marines are delinquent primarily because of overdue medical surveillance examinations.

References: 29 CFR 1910.120(f) and MCO 5100.29C Volume 1

Goal: Achieve at least 90% for Marines and Civilians Marines overall medical surveillance.

Target Date: 1 December 2024

Goal Leader: Division Directors, Special Staff and HQ Company Commander

Goal Progress Reporting: Division Directors and HQ Company Commander will brief the progress of this goal at the Commanding Officer's Quarterly Safety Council.
