1. <u>Situation</u>. Privately owned motor vehicle mishaps are the single largest category of preventable mishaps in the Marine Corps. According to Commandant of the Marine Corps Safety Division, traffic crashes are the number one cause of death to Marines and Sailors. Risks to new drivers include; inexperience, distraction, fatigue, speed, seatbelt noncompliance, and alcohol use. New drivers often fail to manage these risks due to poor decision-making. The purpose of the Driver Education Program (DEP) is to improve the judgment and decision-making skills of new or inexperienced drivers in order to reduce the risk of experiencing a motor vehicle mishap.
