

MCLB ALBANY SAFETYGRAM

2019 Safety Barometer Survey Results Are In!

Employees of MCLB Albany participated in the fifth National Safety Council's (NSC) Safety Barometer Survey, with an overall score is a very high **98%** compared to 99% in 2016. This indicates that the MCLB Albany scored higher than **98%** of the other 480 organizations in the NSC Database.

The table below shows the current 2019 Safety Barometer Survey results compared to the 2010, 2011, 2013 and 2016 Safety Barometer Survey results for Marine Corps Logistics Base Albany:

Analysis Highlights

Highest-rated components:

1. Presence of personnel well trained in emergency practices
2. Supervisors integrating safety into the operational readiness process
3. Belief that personnel understand safety and health regulations

Lowest-rated components:

1. Belief that commander/managers does more than law requires
2. Personnel following lockout/tagout procedures
3. Commander/manager stressing the importance of safety in communications

Additionally, all six program category percentile scores are well above average in 2019.

The program Category percentile scores for MCLB - Albany ranged from a very high score of 95 for Safety Support Climate, to an outstanding score of 100 for Supervisor Participation.
