

MCLB ALBANY SAFETYGRAM

MARINE CORPS SAFETY MANAGEMENT SYSTEM (MCSMS) MCO 5100.29C

The purpose of this Order is to establish the Marine Corps Safety Management System (MCSMS), and prescribes the roles, responsibilities, and requirements for Headquarters Marine Corps, each level of command, supporting establishment organizations, individual Marines, and unit members within the MCSMS. This policy provides the requirements for a fully functional MCSMS and establishes, through documentation, the organization's expectations, objectives, employee participation, risk tolerance, and SMS business rules for its personnel. Policy corresponds to the "plan" stage in the Plan-Do-Check-Act (PDCA) business cycle. How each organization implements, promotes, supports, and reinforces those policies is the "Do" in the PDCA cycle. Policy will also define, document, and communicate the safety and risk-related roles, responsibilities, and authorities throughout the organization. Each commander shall align MCSMS policies with applicable instructions and guidance from higher headquarters and then convey its respective. Risk Management must be integrated into mission and task planning, preparation, briefing, execution, and debriefing. During hazard analysis, commanders must identify, document, and communicate an understanding of conditions that could prevent mission accomplishment. All risk decisions must be made at the appropriate level in the chain of command. Nine volumes in this order.

Volume 1 Marine Corps Safety Management System (MCSMS)	Volume 2 Risk Management	Volume 3 Marine Corps Traffic Safety Program
Volume 4 Marine Corps Aviation Safety	Volume 5 Recreation and Off Duty Program (RODS)	Volume 6 Safety and Occupational Health Programs
Volume 7 Marine Corps Radiation Safety	Volume 8 Marine Corps Explosives Safety Management Program	Volume 9 Navy and Marine Corps Safety Investigation and Reporting Manual
