

# MCLB ALBANY SAFETYGRAM

## NATIONAL SAFETY MONTH | Week 3: Roadway Safety

### Motorcycle Awareness – Ride right. Stay in the fight.

Marines lost their lives in motorcycle accidents in FY2025

Motorcycles made up over half of private motor vehicle deaths in the Marine Corps for FY2024

More likely to be killed or injured everyday

## SAFETY TIPS

### Ride defensively

Anticipate the actions of other drivers. Take a glance over your shoulder before maneuvers.

### Be alert

Be observant at all times so you can slow down or stop if something unexpected occurs.

### Beware of blind spots

Don't weave in and out of traffic, be wary when going around a vehicle, and be careful when passing.

### Be protected

Wear the right protective clothing including jacket, pants, boots, and gloves. Wear fluorescent clothing at night.

### Be responsible for your safety

Never assume that any vehicle or pedestrian sees you or will follow the rules. Your safety is your responsibility, so stay alert and smart when riding.

### Consider training

Training can improve your skills, performance and safety on the road.
